

International Scientific Conference East-Central Europe and Asia – challenges of XXIst Century

Concerns:

Cooperation and participation in International Scientific Conference on „*East-Central Europe and Asia – Challenges of XXIst century*”, taking place on 18th-19th June 2012, in the premises of the Alcide de Gasperi University of Euroregional Economy in Józefów, Sienkiewicza street 2.

Invitation to participation

For the past few years University of Euroregional Economy has been cooperating with Asian countries, particularly from Nepal, India, Bangladesh, Turkey, Iran. We have implemented studies in English, where the highest percentage of students come from Asia. Furthermore, the University vividly cooperates, both in the scientific and didactic field, with academic centers from countries of the Visegrad Group (V4 Group) and East Europe.

Having that in mind, we plan to organize scientific conference regarding relations between V4 Group, Eastern Europe and Asian countries. The main goal of this conference is to bring experiences of particular Asian countries closer to the inhabitants of East-Central Europe countries. It is also intended to find possible areas of cooperation between those two parts of the world. Lastly, the Conference is supposed to become a platform of exchange experience and knowledge between scholars, experts as well as students from both regions of the world.

Many scholars and leading experts from Poland, Czech Republic, Hungary, Slovakia and Ukraine as well as from India, Nepal, Bangladesh, United Arab Emirates, Iran and China are invited. Such a variety of great minds from different countries will definitely result in a wonderful exchange of thoughts and will inspire us to look for what Europe and Asia have in common in the XXIst century.

The Conference will be divided in the following thematical panels:

- Social and political issues & human rights
- Law and economy
- Security
- Energy sector and renewable sources of energy

The Conference will be held in English and will be followed by publication which also be issued in English.

We would be really pleased if You will accepted the invitation. Your collaboration will certainly raise the importance of the Conference. We also strongly believe that, thanks to your great experience, you will bring an immense input into the Conference *per se*.
