LOGISTICS ANALYTICS EURO mini-conference

MINSK, BELARUS, JUNE 18-19, 2018

The Conference is organized by Molde University College - Specialized University in Logistics (Norway), Belarusian State University and National Academy of Sciences of Belarus. The aim of the conference is to bring together researchers and practitioners interested in the development of analytical models, methods and tools for logistics applications, which include but not limited to:

- Transportation
- City Logistics
- Location and distribution
- Inventory management
- Production
- Purchasing
- Supply chains
- Green Logistics
- Health and humanitarian logistics, Service logistics
- Natural resources and energy logistics
- Military and emergency preparedness logistics
- Education, Event and sport management

Outstanding Plenary and Semi-Plenary speakers from North America and Europe will present their latest achievements in Logistics Analytics and outline future development. Submission of abstracts (max.1500 ch.) is opened on EasyChair (easychair.org/conferences/?conf=la2018). There will be the option of submitting the best papers to Omega - The International Journal of Management Science in order to be published in a cluster.
